

BRS Conference Program 2005

THURSDAY 9th June 2005

10.30 Registration Opens

12.00-13.00 LUNCH

13.00-17.00

Parallel Satellite Sessions

SAVING THE TITANIC
SPONSORED BY ROCHE
PRODUCTS LTD

Introduction and 1st
interactive question set
Paul Stevens (Consultant
Nephrologist & Head of Department,
Kent & Canterbury Hospital)

NSF Part II and 2nd
interactive question set
Donal O'Donoghue (Consultant
Nephrologist, Salford & Chair of The
Renal Advisory Group)

From UK to USA to UK
Charlie Tomson Consultant
Nephrologist, Southmead Hospital,
Bristol)

Canadian Experience
Brendan Barrett (Professor of
Medicine, Nephrology & Clinical
Epidemiology, Health Services
Centre, Newfoundland, Canada)

Service Re-design
Prof. David Colin-Thomé, OBE
(National Primary Care Clinical
Director, Department of Health)

Break – 20 min

Revisit 1st and 2nd
interactive question set
Liam Plant (Nephrologist, Cork &
Chairman of Irish Renal Service
Strategy Group)

Innovations in pre-emptive &
living Tx
Lisa Burnapp (Nurse Consultant in
Transplantation, Guys Hospital,
London)

CKD Community care

AN EDUCATION UPDATE ON
THE MANAGEMENT OF
HYPERPHOSPHATAEMIA IN
CHRONIC RENAL FAILURE
PATIENTS SPONSORED BY
SHIRE PHARMACEUTICALS LTD

A history of treatment for
Phosphate control in patients
with Renal Dialysis
Professor John Cunningham, Centre
for Nephrology, Royal Free and
University College (Chair)

Compliance, Concordance and
Adherence: A Renal Dietician's
perspective of Phosphate
control in End Stage Renal
Dialysis (ESRD) patients.
Louise Wells, Senior Renal Dietician,
York PCT

The actions and metabolism of
Lanthanum Carbonate in the
bone and liver of patients with
Kidney Failure. Should we be
worried about the accumulation
of Lanthanum Carbonate?
Dr. Marc de Broe, Department of
Nephrology-Hypertension, University of
Antwerp, Antwerp, Belgium

Efficacy of Lanthanum
Carbonate - phosphate control in
the management of
Hyperphosphataemia.
Presentation of the preliminary
head to head study data.
Dr Alastair Hutchison, Consultant
Nephrologist, Manchester Royal
Infirmary

Assessing the cost
effectiveness of Lanthanum
Carbonate in the treatment of
Hyperphosphataemia
Alan Brennan, Director, School of
Health and Related Research

PATIENT QUALITY OF LIFE
(QoL) AFTER
TRANSPLANTATION
SPONSORED BY NOVARTIS
PHARMACEUTICALS LTD

Quality of Life – How are we
faring?
Dr Chris Dudley
Consultant Nephrologist
Southmead Hospital, Bristol

How to measure 'success'
post-transplant?
Mr Chris Rudge
Medical Director, UK Transplant

Taking a Holistic Approach to
Patient Care

- Post transplant
Cardiovascular Risk
Dr David Wheeler
Consultant Nephrologist
Royal Free Hospital, London

- Post transplant Cancers
Dr Paul Harden Consultant
Nephrologist
The Churchill Hospital,
Oxford

- Managing the Gastro-
Intestinal (GI) tolerance of
Immunosuppression
Mr Magdi Shehata
Consultant Surgeon
Nottingham City Hospital

- Patient Quality of Life - A
Nurse's View
Anita Boswell Transplant
Renal Nurse
Nottingham City Hospital

Panel Discussion

Coffee

	<p>Nicola Thomas (Research Lead Nurse, St. Helier Hospital)</p> <p>Workforce Redesign Jane Macdonald (Vice-President of British Renal Society & Secondment at Renal Workforce Redesign)</p> <p>Interactive questions results and panel Liam Plant (Nephrologist, Cork & Chairman of Irish Renal Service Strategy Group)</p>	<p>Operational Research (SchARR)</p> <p>Chairman Summary, Professor John Cunningham</p>	<p>Transition of Care Patricia Franklin Senior Clinical Nurse Specialist Oxford Renal Unit</p> <p>So why do we do transplantation? Mr Andrew Ready Consultant Surgeon Queen Elizabeth Hospital, Birmingham</p> <p>Panel Discussion</p> <p>Meeting Close & Summary</p>
<p>18.00-19.30</p>	<p>CONFERENCE OPENING Auditorium</p> <p>Steve Smith, President of the British Renal Society Jane Macdonald, Vice President of the British Renal Society</p> <p>Research Initiatives Update – Ken Farrington, Chair of the BRS Research Committee, 4th Round Awards Joint BRS/NKRF Fellowship Award BRS Abstract scholarship awards BRS Honorary Fellowship Keynote Speaker: Tim Smit, CEO, Eden Project</p>		
<p>19.30-21.30</p>	<p>Exhibition Opening & Welcome Reception & Posters</p>		<p>Windsor Hall</p>

BRS Conference Program 2005

FRIDAY 10th JUNE 2005

FRIDAY 10th JUNE 2005			
8.00	Registration		
9.00-10.30	Auditorium	Palatine	Porters
	<p>LIVING WITH CHRONIC ILLNESS Chair: Maria Da Silva Gane, Lister Hospital, Stevenage</p> <p>Enhancing self management of fatigue and low mood in renal disease L Fisher, Institute of Psychiatry & Kings College Hospital NHS Trust</p> <p>From diagnosis to dialysis - improving the patient experience: evaluation of a psycho-educational intervention for pre-dialysis patients and their families J Jenkins, University Hospital of Wales</p> <p>Psychology of chronic illness Guest Speaker: Howard Leventhal, Institute for Health, Rutgers, New Jersey, U.S.A</p>	<p>FLUID MANAGEMENT Chair: Amanda Armstrong, Mid Essex Hospitals Trust</p> <p>Scholarship Winner: High dietary sodium intake contributes to sodium retention in HD patients P McLaren, Lister Hospital</p> <p>A comparison of patient stability and tolerability on standard bicarbonate dialysis and acetate free paired haemodiafiltration C Rhodes, Derby City General Hospital</p> <p>Assessment of Dry weight in dialysis patients Guest Speaker: Elizabeth Lindley, St James's Hospital, Leeds</p> <p>Achieving dry weight in PD Guest Speaker: Graham Woodrow, Leeds General Infirmary</p>	<p>VASCULITIS Chair: Ken Farrington, Lister Hospital, Stevenage</p> <p>Day case renal biopsy, 3 year experience of adequacy, complications and diagnostic spectrum M Bairy, Hull Royal Infirmary</p> <p>Plasma Exchange Guest Speaker: Robert Higgins, Walsgrave Hospital, Coventry</p> <p>Vasculitis - the latest developments Guest Speaker: David Jayne, Addenbrookes NHS Trust</p>
10.30-11.30	Coffee Break Posters & Exhibition		
11.30-13.00	<p style="text-align: center;">Auditorium NATIONAL SERVICE FRAMEWORK FOR RENAL - PART TWO Chair: Steve Smith, President, BRS</p> <p>Overview of the NSF Part 2 Guest Speaker: Donal O'Donoghue, Chair Renal Advisory Group</p> <p>Is it feasible to provide haemodialysis within the primary care setting? T Hodnett, South Bristol Dialysis Unit</p> <p>Scholarship Winner: The development of an expert renal system to highlight and manage CKD in the community B Klebe, Kent & Canterbury Hospital</p> <p>The benefits and challenges of collaborating with primary care teams in prevention and management of CKD Guest Speaker: Nicola Thomas, South West Thames Institute for Renal Research</p>		
14.00-15.00	Lunch Exhibition and Posters		
	<p style="text-align: center;">SAS FORUM Chair: Mick Kumwenda, Glan Clwyd Hospital</p>		

13.30-15.00	1) Guest Speaker	Elizabeth Bailey Associate Specialist in Nephrology Preston Renal Unit and member of BMA SASC Negotiating Subcommittee "Career Progression in Nephrology"
	Topic	
	2) Draft SAS Constitution	
	3) The future of SAS Forum in Nephrology	- All members
	4) SAS Forum Officers	- to elect Scottish Representative
	5) AOB	

14.00-15.00 RESEARCH CLINIC
THE RENAL PSYCHOLOGICAL SERVICES GROUP BUSINESS MEETING

15.00-16.30	Auditorium	Palatine	Porters
	<p>ADVANCES IN TRANSPLANTATION Chair: Louise Collar, University Hospital of Wales</p> <p>Scholarship Winner: The causes and effects of prolonged kidney cold storage time – a single centre prospective audit H Moore, Manchester Royal Infirmary</p> <p>Living donor kidney transplantation: How does service provision compare between North Wales, Canada and Norway D Oliver, Renal & Diabetes Centre, Ysbyty Glan Clwyd, Wales</p> <p>Renal transplantation with vascular anomalies: a salvageable surgical challenge PB Singh, Banaras Hindu University, Varanasi, India</p> <p>Transplanting across ABO incompatibility Guest Speaker: Robert Higgins, Walsgrave Hospital, Coventry</p>	<p>NUTRITION SCREENING & ASSESSMENT Chair: Hayley Wells, Guy's Hospital, London</p> <p>The nutritional and biochemical status of renal patients approaching dialysis: a multi-centre audit S Perry, Hull Royal Infirmary</p> <p>Scholarship Winner: Screening for malnutrition in HD patients – are objective markers effective? G Hartley, Freeman Hospital, Newcastle</p> <p>Can a general nutritional screening tool be used to identify HD patients with increased nutritional risk? S Jorgensen, York Hospital</p> <p>Markers of malnutrition – which should we use? R Wolfenden, Guy's Hospital</p> <p>Scholarship Winner: Achieving the standards for protein and calorie intake in HD – can our patients do it and does it matter? L Wells, York Hospital</p> <p>'On dialysis' food provision can improve dietary intake on dialysis days S Jorgensen, York Hospital</p>	<p>RESEARCH INITIATIVES FORUM Chair: Ken Farrington, Chair BRS Research Initiatives Group</p> <p>Effect of dialysate temperature on vascular refill during dialysis M Suresh, Research Fellow, Lister Hospital, Stevenage</p> <p>Can a functional food exert a cholesterol lowering effect on renal transplant patients? Debbie Sutton, Renal Research Dietitian, Queen Alexandra Hospital, Portsmouth</p> <p>The clinical epidemiology of chronic renal impairment and the effectiveness and costs of an innovative, shared care scheme for patient management Chris Jones, Renal Research Fellow, Southampton General Hospital</p> <p>A prospective study to investigate the evolution of vascular calcification, arterial stiffness and endothelial dysfunction in a cohort of pre-dialysis patients – Baseline data Tessa Savage, Research Associate, Southmead Hospital, Bristol</p> <p>Prospective Study of cardiovascular risk factors in CRF J N Townend, Senior Lecturer in Cardiology, Queen Elizabeth Hospital, Birmingham</p> <p>Is serial bioelectric impedance monitoring of extracellular fluid volume of clinical value in patients with hypertension and renal failure? – Final results Colin Jones, Consultant Nephrologist, York Hospital</p>

15.00-16.30 The Renal Psychological Group Business Meeting
Chair: Jacqueline Fraser
Informal Q&A session with Professor Leventhal, Institute for Health, Rutgers, New Jersey, U.S.A

16.30-17.30 Exhibition & Posters Windsor Hall

BRS Conference Program 2005

SATURDAY 11th JUNE 2005

8.00-9.30	Registration & Coffee		
9.30-11.00	<p style="text-align: right;">Auditorium</p> <p>THE ABLE PROGRAMME: MEETING THE CHALLENGES & ISSUES OF CKD IN THE SOUTH ASIAN & AFRICAN-CARIBBEAN COMMUNITIES Chair: John Bradley, Addenbrookes Hospital, Cambridge</p> <p>General Overview & Future Plans Guest Speaker: Neerja Jain, NKRF</p> <p>Awareness & community education programme for renal disease in an at risk population in Leicester Guest Speaker: John Feehally, University Hospital, Leicester</p> <p>Improving access for the UK's South Asian population with type 2 diabetic renal disease Guest Speaker: Gurch Randhawa, Institute of Health Research, Luton</p> <p>Kidney Disease Education & Prevention Project in the African-Caribbean Population in Birmingham Guest Speakers: Dwomoa Adu, Birmingham</p> <p>Renal dysfunction in an unselected Indian Asian & European White Cohort Population in Southall - a study of prevalence, risk & awareness Guest Speaker: Liz Lightstone, Imperial College (Hammersmith Hospital)</p> <p>Peer Education Programme Guest Speaker: TBC</p> <p>Panel Discussion involving speakers above plus additional panellists including a representative from the Research Grants team at the Big Lottery Fun</p>	<p style="text-align: right;">Palatine</p> <p>PATIENT EMPOWERMENT Chair: Cathy Holman, York District Hospital</p> <p>Scholarship Winner: The development of a patient held record and individual plan of care to improve the level of individualized information and support to our patients M Higginbotham, York Hospital</p> <p>The health education needs of patients requiring anaemia treatment A Roche, Kings College Hospital, London</p> <p>Blood borne viruses and screening in dialysis patients V Sanu, St James's University Hospital, Leeds</p> <p>Patient Empowerment Guest Speaker: Dennis Crane, MBE, Regional Advocacy Officer, National Kidney Federation (NKF)</p>	
11.00-12.30	Brunch Hall Exhibition & Posters (Exhibition closes at 12.30)		Windsor
12.30-14.00	<p style="text-align: right;">Auditorium</p> <p>EARLY DETECTION OF CHRONIC KIDNEY DISEASE Chair: Natasha McIntyre, Nottingham City Hospital</p> <p>Responding to the challenges in the management of diabetic renal disease J Lewis, Glan Clwyd Hospital, Wales</p> <p>The difference between the MDRD and Cockcroft & Gault methods for estimating GFR from serum creatinine: effect of body weight and a simple method for</p>	<p style="text-align: right;">Palatine</p> <p>NEW WAYS OF WORKING Chair: Jane Macdonald, Hope Hospital, Salford</p> <p>Is there a role for the pharmacist in supplementary prescribing for haemodialysis patients? L Ridley, York Hospital</p>	<p style="text-align: right;">Porters</p> <p>TECHNICAL ASPECTS OF HAEMODIALYSIS Chair: Mark Forrest, Hope Hospital, Salford</p> <p>On-line monitoring of KT/V to allow modification of HD treatment times and ensure consistent delivery of adequate dialysis dose C Fielding, Derby City General</p>

reconciliation
J Tattersall, St. James's University Hospital, Leeds

Managing Renal Disease in Primary Care
Guest Speaker: Ian Wilkinson, Manchester

Early detection of Renal Disease
Guest Speaker: Steve Thomas, Guy's & St. Thomas' Hospital, London

Management of renal failure without dialysis: is there a magic trick?

C Holman, York Hospital

Sharing best practice across clinical and geographical boundaries: the introduction of an integrated care pathway (ICP) for people dying with chronic kidney disease (CKD)

R Lewis, Hull Royal Infirmary

Audit of the effectiveness of the dietetic assistant on a renal ward

J Tomany, Manchester Royal Infirmary

Future Challenges for renal dietitians: Primary care and new ways of working

Guest Speaker:
Debbie Sutton, Portsmouth

Hospital

Detection of unexpected flow patterns in arterio-venous fistulae using ultrasound dilution
G Hossanee, St. James's Hospital, Leeds

Microbiological monitoring of dialysis water systems – is there a need for increased sampling?
R James, The Royal London Hospital

HD catheter dysfunction is reduced by catheter restricted filling with gentamicin and heparin
H Pitt, Derby City General Hospital

Malnutrition in HD – is there a link with haemoglobin?
L Wells, York Hospital

Scholarship Winner:

Once weekly darbepoetin alfa is more cost effective than thrice weekly IV epoetin alfa when given intravenously – a prospective, cohort study
L Ridley, York Hospital
