

Expanding Horizons 2011

You are invited to join us at **Abbott's Breakfast Scientific Symposium on 7th June at the BRS/RA 2011 Annual Congress**

07.45 - 08.45am Hall 11, International Conference Centre, Birmingham

Vitamin D compounds have been used successfully to treat secondary hyperparathyroidism for almost three decades. Refer to¹

Keep up with the recent research and development by attending this symposium; hear the latest concepts and understanding, and form your own views on the interesting new data being presented.

Agenda

-  **07:30** **Registration and light refreshments**
-  **07:45** **Introduction**
Professor Daniel Zehnder,
Associate Clinical Professor,
University Hospitals of Coventry and Warwickshire
-  **07:50** **Selective Vitamin D Receptor Activation and Proteinuria.**
The VITAL Study
Selective vitamin D receptor activation with paricalcitol for reduction of albuminuria in patients with type 2 diabetes, a randomised controlled trial.
Professor Bruce Hendry,
Professor of Renal Medicine,
Kings College Hospital NHS Foundation Trust
-  **08:05** **Selective Vitamin D Receptor Activation and Left Ventricular Hypertrophy.**
The PRIMO study
Paricalcitol Capsules Benefits in Renal Failure Induced Cardiac Morbidity in Chronic Kidney Disease Stage 3/4.
Professor Ravi Thadhani,
Director of Clinical Research in Nephrology,
Massachusetts General Hospital, USA
-  **08:35** **Questions and answers**
