Vitamin D and the Cardiorenal Nexus – A Silver Bullet?

Friday 16th March 2012, 09.30am-5.15pm

Robens Suite, 29th Floor, Tower Wing, Guy's Hospital, London

You are cordially invited to a key meeting in the 2012 renal calendar to discuss the hot topic of vitamin D.

Come and hear the latest data, share your views in the discussions, learn from the keynote lecture, network with colleagues from around the country and participate in the big debate.

Includes expert UK speakers:

Dr David Goldsmith

Professor Daniel Zehnder

Professor Bruce Hendry

Professor John Cunningham,

Professor Luigi Gnudi,

Professor Kasia Hawrylowicz

PLUS international speakers:

Dr Jonas Spaak,

Consultant Cardiologist, Danderyd

University Hospital and Karolinska

Institute, Stockholm, Sweden

Dr Martin de Borst,

Nephrologist, University Medical

Centre, Groningen, Holland.

Presentations:

On topics surrounding the link between vitamin D, CKD and cardiovascular disease, and on numerous aspects of the role of vitamin D.

Keynote lecture:

Cross-talk between the vitamin D- FGF23-KLOTHO axis and the RAAS in CKD; two systems divided or sharing a common language?

Debate:

This house believes that all patients with CKD should receive vitamin D repletion.

For all nephrologists, diabetologists with interest in nephrology, cardiologists and endocrinologists.

Places are strictly limited. To be part of this exciting event, please reserve your place by e-mailing: ReannaN@janguocom.com, or calling: 01344 860612
